92nd Peace Date To Be Observed Tuesday

Mayor Names New Town Policeman

Mayor Richard D. Robinson announced yesterday that he had appointed, subject to the approval of the Town Council, John P. Stinnette as Appomattox Town Policeman. Mr. Stinnette is 27, is married and has a daughter 2 1-2 years old. He plans to move to Appomattox. He is presently employed by the Lynchburg Foundry.

Mr. Stinnette had four years experience as Military Policeman.

It has been announced that he is scheduled to assume his duties the latter part of next week, upon arrival of his uniform, for which he went to Richmond Tuesday for measurement.

C. LEWIS McDEARMON TO HEAD CANCER DRIVE

C. Lewis McDearmon, local businessman, who is serving as Appomattox County Chairman for the annual Cancer Crusade, has announced that April is Cancer Control Month. Each April, volunteer workers from Maine to Texas to Alaska, join together in the Cancer Crusade—in a dynamic effort to give men and women protective, even life-saving information, and to raise the millions of dollars necessary to carry forward the American Cancer Society's three pronged-attack on cancer: through research, education and service to patients.

Mrs. Jennings Conner, who has served as Campaign Treasurer for the past several years, will again perform this valuable service. She will be glad to accept any individual contributions, along with her official job of receiving and banking all monies collected by the many volunteer workers.

Mr. McDearmon has announced that funds already contributed toward research have made possible in just a few years more progress than in all previous history. Perhaps in a few more years, with sufficient research, this dread disease may be brought under control.

SECONDARY ROAD FUNDS ANNOUNCED

The State Highway Commission today announced allocations totaling $35,224,397 for Virginia's 41,261 miles of secondary roads for the 12 months beginning July 1.

The Allocation for Appomattox County is as follows:

Regular funds:	$ 188,113
Equalization fund	26,620
Federal Aid and State Matching Funds	60,360
Total	275,093.

The total funds estimated for distribution for the maintenance and improvement of secondary (farm-to-market) roads in 96 of the 98 counties exceed last year's allocations by $1,451,759. This increase was a result of: (1) additional federal aid, which must be matched on a 50-50 basis, and (2) a rise in state revenue expected during the fiscal year.

Included in the total allocations are $27,317,977 in regular state funds; $3,878,210 in federal aid and an equal amount in state matching money; and a rotating bridge fund of $160,000. Also in the regular state money for the fourth year is a $2,000,000 equalization fund which was provided by the Highway Commission for distribution to counties on the basis of nonhard surface secondary road mileage.

The regular state funds, excluding the Equalization Fund, are distributed to the 96 counties in the secondary system by a formula that includes population, secondary road mileage, area and vehicle miles of travel. Three factors: area, population and road mileage, control the distribution of federal aid money for secondary roads. Two counties, Arlington and Henrico, are not included in the allocations because they maintain their own secondary roads and receive their money by a different formula.

The allocations announced today are based on anticipated revenue during the next fiscal year, engineers pointed out. Money can be spent only as it becomes available.

Abbitt Bill Up For Hearing By Committee

Representative Watkins M. Abbitt (D-Va.) announced today that the House Agriculture Tobacco Committee, which he heads, will hold hearings April 10 and 11 on his bill which would separate Virginia dark-fired tobacco, Type 21, from Type 22 and 23 in figuring marketing quotas and price supports.

The bill, H. R. 5002, was introduced by Abbitt sometime ago, and has received endorsement from a number of groups in the state.

Abbitt said hearings will be held in the House Agriculture Committee offices in the New House Office Building in Washington at 10:00 A. M., on April 10 and 11, and that he has invited interested groups to testify on the proposed change.

The purpose of the bill, according to Representative Abbitt, is to separate Virginia dark-fired tobacco and make it a sparate "kind of tobacco" so far as determining marketing quotas and price supports is concerned. At present Type 21 ir considered by the Department of Agriculture along with Types 22 and 23 in figuring acreage allotments and related statistics.

Abbitt pointed out that this is a disadvantage to the Virginia growers because while Type 21 tobacco is in strong demand, Types 22 and 23 are not selling well and are being purchased by the stablization pool.

Tobacco people in Virginia have contended for years that Type 21 should be separated from the other two types so as to put it on its own footing and give Virginia growers the benefit of the preferred standing it has enjoyed on the market.

Type 22 tobacco is grown largely in Tennessee and Type 23 is grown mostly in Kentucky.

It has been pointed out that despite the favorable balance between supply and demand on Type 21, Virginia growers took a 10 per cent acreage cut this year.
